Title: COMPOUND SAFETY GLASS AND PVB FOIL FOR THE PRODUCTION THEREOF

PRELIMINARY AMENDMENT

Commissioner for Patents
 Washington, D.C. 20231

SIR:

Prior to calculating the national fee, and prior to examination in the National Phase of the above-identified International application, please amend as shown below. Please note that the claims of the application were amended under Article 34. This Preliminary Amendment is based on the amended claims.

IN THE CLAIMS:

A' 3. (Amended) Laminated safety glass according to claim 1, characterized in that the proportion of the polyalkylene glycols in the total mixture for the intermediate layer is greater than 10% by weight and less than 25% by weight.

4. (Amended) Laminated safety glass according to claim 1, characterized in that at least one plasticizer selected from the group consisting of

- esters of polybasic aliphatic or aromatic acids,
- polyhydric aliphatic or aromatic alcohols or oligoether glycols having not more than four ether units with one or more unbranched or branched aliphatic or aromatic substituents, e.g. dialkyl adipate, dialkyl sebacate, esters of di-, tri- or tetraglycols with linear or branched aliphatic
